Competency-Based Learning
Series: Seminar #3 Breakout
Formative Assessment

April 2017
You are about to lead 12 young people into the mountains for 5 days. With a colleague, name one or more learning targets and matching formative assessments that will monitor campers’ skills and needs, while helping campers assess their own readiness for wilderness travel.
Define the role of formative assessment in the flow of classroom teaching and learning.

Assessments

formative assessments

summative assessment
Essential Question:
Why is formative assessment one of the most critical components of a proficiency-based learning system?

Pick 2-3 passages that help you think about the essential question.
Formative Assessment

Walk around and discuss—find one person and share your first highlighted excerpts and why you chose those passages. We will do this three times, giving about 3 minutes for each round.
The paradigm shift

...from

“How will I teach this?” (presenting)

“Did everybody get that? ... OK, let’s move along.”

...to

“How will I help my students understand where they are in process of learning this?”

“What is each student is in their understanding of this critical concept or skill?”
Council of Chiefs and State School Officers formed a task force to define features of formative assessment:

- Formative assessment is a **planned process**, not any particular test.
- Formative assessment takes place **during instruction**.
- It provides **assessment-based feedback** to teachers and students.
- The function of this feedback is to help **teachers and students make adjustments** that will improve students' achievement of intended curricular aims.

Exit Tickets

Identify one concept / skill from today’s class that you are struggling with, and one concept / skill you are confident in.
Exit Tickets

What is one thing you wish I would do more of to help your learning, and one thing you wish I would do less of?

What do you want me to know about you as a learner?

Can you turn $3 + 9 = 12$ into a subtraction problem using the same numbers?
In one Tweet-length statement, what is the difference between opinion and persuasion?
Exit Tickets

1. Identify one concept / skill from today’s class that you are struggling with, and one concept / skill you are confident in. (How is your learning? What should I reteach?)

2. What is one thing you wish I would do more of to help your learning, and one thing you wish I would do less of? What do you want me to know about you as a learner? (How is my teaching being received? How can I help all students learn?)

3. Name one ecological service that the black fly provides to the ecosystems it inhabits. (Can you transfer a core concept to a novel setting?)

4. Can you turn $3 + 9 = 12$ into a subtraction problem using the same numbers? (Which students might benefit from further support with this core concept?)

5. In one *Tweet-length statement*, what is the difference between opinion and persuasion? (How is your learning? What should I reteach?)
With one or two classmates, create a diagram that explains the roles of States and their Country

Connecting Summative Assessments to Formative Plans

Unit Title: The American Revolution- was it justified?
Grade Level/Course: Grade 8 US History

Stage 2 - Evidence of Student Learning

Summative assessment

Students will assume the roles of historical figures and participate in a 1776 colonial town meeting at which they will debate whether to declare independence from Great Britain. Loyalists and Patriots will try to persuade Neutralists to join their side; Neutralists will question the Loyalists and Patriots on their arguments and use/interpretation of evidence and then vote each “round” on which side has the most compelling arguments and rebuttals. All students will use strategic thinking to cite evidence, develop logical arguments and justify their own conclusions or critique conclusions others have drawn. Students who are proficient are able to think strategically and make logical inferences about the perspective the historical person they are role-playing would have had on the events and key laws of 1770s America.

Students will prepare the following materials to use in their town meeting:

- Written speech from perspective of historical person who the student is role-playing (SS 1/E; SS 6 E, GP A.2, A.3)
- Create a visual (poster, google site, twitter feed, etc.) that demonstrates the point of view of character (SS 6/B; GP A.4)
- Nameplate for historical character with “quote” summarizing character’s perspective on independence from Great Britain (GP A.4; SS 6.B)
