Competency-Based Learning Series:
Seminar #4—Self-assessment and Continuous Growth

June 2017
SESSION OUTCOMES

• To connect the Elements of Effective Instruction with self-assessment and professional growth, through a self-assessment tool.
• To set and discuss specific goals for the year ahead.
Opening Reflection Prompt:

How do I foster my own continuous learning and growth?

What have I deliberately changed this year that exemplifies my commitment to improvement, and that will impact students?

Share-out?
What's my path?

Career Trajectory

Impact

Elements of Instruction

Taking Stock, Applying, Looking Ahead
Elements of Effective Instruction

Where am I going?
Where am I now?

Where do I stand in relation to those elements?
How am I closing the gap between where I am now and where I want to go?

Complex Thinking and Transfer
Clear, Shared Outcomes
Practice and Feedback
Varied Methods
Learning Environment
Competency-based Instruction Self-Assessment Tool

Purpose of the Self-assessment Tool:
- To propose key components of personalized instruction
- Participants conduct a self-check and orient themselves to learning opportunities in their future
- Teams conduct a collective team-check, then plan to learn broadly and strategically on behalf of school-wide capacity

How we recommend you use the Self-assessment Tool:
This self-assessment is intended to help you and your colleagues reflect -- honestly and deeply -- on the essential components and practices to support competency-based learning. Take this opportunity to assess your areas of strength and your areas of need. Please also compare notes with members of your team, so that you may be strategic about planning for your collective approach to all of your learning opportunities that lie ahead.

Not a classroom teacher? Choose your lens:
School administrators and other non-teaching staff should consider adopting a lens with which to utilize this tool. Our recommendations are:
- Complete the self-assessment on behalf of a teacher of your choosing (perhaps someone whose professional goals you will be supporting in the coming year);
- Complete the self-assessment with a school’s entire faculty in mind;
- Complete the self-assessment for yourself, in terms of your strengths and areas of need related to observing, supporting or evaluating these characteristics;
- Or, your own defined lens.

See p. 2 to begin the self-assessment
**Self-assessment tool**

Element 1: **Learning Environment**

The classroom learning environment supports learning for all students. This includes the physical environment, the routines and procedures, classroom management practices and the development of positive relationships that support a physically and socially/emotionally safe and supportive environment for taking risks, asking questions and making mistakes.

Add reflective questions for yourself here. What do you most want to work on at this institute? What are you hoping to shift in your practice?
Time for Self-Assessment
10 - 15 min
Reflection on the tool and this process

* Applications for your school / district?
* School-analysis potential?
Applying the elements in your practice:

- Triads
Form mixed groups of 3: introductions; time-keeper role

Round One (3 min each): name a success or a strength you identified in the self-assessment process

Round Two (5 min each): Name and explore a challenge or set of challenges you are willing to embrace next year

Open conversation: up to 5 minutes
Reflection on Process
Warm / Cool Feedback on the Instrument
Questions?
