

## Competency-Based Learning Series Agenda for Seminar II: February 2016

### Series Outcomes:

- Team members will be ready to lead the implementation of competency-based learning.
- The district teams will be prepared to design and plan professional development regarding competency-based learning within the 2015/16 school year.
- We will develop a network of support across the state of Colorado to enact a vision and implement a system of learning that supports personalization through competency-based learning and multiple and flexible pathways.

### Seminar Outcomes:

- Understand the use of performance indicators in a system of proficiency-based learning.
- Explain the role of scoring criteria in ensuring equity and college- and career-readiness in a competency-based learning system
- Utilize a process for developing scoring criteria aligned to standards
- Learn and apply processes for development of summative assessments
- Create a framework for a district assessment plan, complete with action steps to include teachers in the development of scoring criteria
