Outcomes

1. Participants will apply the components of district-wide implementation of proficiency-based learning to the design of a local district plan.
2. Participants will determine, through self-assessment, where their district currently is in the development of a district-wide proficiency-based learning plan.
3. Participants will explore the roles of policy, practice, and public will in district-wide implementation of proficiency-based learning.
4. Participants will create a framework to jumpstart development of a multi-year action plan using the provided resources.
